

Types of Energy Photo Sort

This PDF goes along with *Building Foundations of Scientific Understanding* Thread C Lesson 1.

Cut apart the cards and per the discussion on page 251 of *Building Foundations of Scientific Understanding*, have the student sort the cards.

Terms of Use

This download is for personal use only. You may not copy, reproduce, alter, modify, or publicly display any content from this download, except for your own personal, non-commercial use. You may post photographs on your personal blog of your family using the download provided that Nurturing Learning is properly credited. This means you must include a link to www.nurturinglearning.com on that post.

You may not reproduce, repackage, or redistribute the contents of any of Nurturing Learning downloads. They may not be used for commercial purposes. For example, you may not print, laminate and then sell it to others.

You are welcome to save the files to your computer and print off copies for yourself or your classroom, link to my site to share with others, and, as stated above, write blog posts that include photos of your family using the files as long as proper credit is given to www.nurturinglearning.com.

If you have any questions, feel free to write to julie@nurturinglearning.com

What kinds of energy make the following things go? (Cards for sorting are on the next page.)

What makes ...

- A lamp light?
- a bike go?
- a toaster work?
- a ball sail through air?
- water boil?
- a toy go?
- a house plant grow?
- a truck run?
- cookies bake?
- a windmill (toy or real) go?
- a swing swing?
- a solar calculator work?

Types of Energy:

Heat Energy	Electrical Energy
Light Energy	Movement Energy
